 Consello Regulador Denominación de Orixe

To Another Great Year

19 – 21 March 2023

THE WORLD'S NO.1
 International Trade Fair for Wines and Spirits

Please visit us at: Hall 11 / L30

D.O. RIBEIRA SACRA MAP

The **Ribeira Sacra** is a wine-producing area with an area of 2,500 hectares of vineyards, which represents 5.2% of the land dedicated to vineyards in Galicia. It includes parishes and places in 20 municipalities located along the banks of the Miño and the Sil, in the south of the province of Lugo and north of Ourense. These municipalities are grouped into **five subzones** traditionally differentiated as producers of very special wines:

Amandi
Chantada
Quiroga-Bibei
Ribeiras do Miño
Ribeiras do Sil

The area dedicated in all of them to the cultivation of the vine is restricted to that located on the riverbank.

The Ribeira Sacra Designation of Origin was authorized on 1996. The Regulatory Council controls and protects the different types of authorized wine and guarantees its quality, also taking charge of promoting the product in the market and protecting its name.

Authorized Varieties

Preferred whites: Godello, Loureira, Treixadura, Dona Branca, Albariño, Torrontés, Branco Lexítimo and Caiño Branco

Preferred reds: Mencía, Brancellao, Merenzao, Sousón, Caiño Tinto, Caiño Longo and Caiño Bravo

Authorized reds: Garnacha Tintureira, Mouratón, Tempranillo and Gran Negro

Weather

Miño Valley , with a rainfall of 900 mm per year and an average temperature of 14°C.

Sil Valley, with a rainfall of 700 mm and an average temperature of 13°C.

Types of Soil

In the Miño Valley the soils are similar to those of granitic origin that dominate in all western Galicia, of sandy and silty, fresh and permeable fractions. In the Sil valley are oriental, with an abundance of clays, although the soil of the terraces has notably improved the quality of the original soil.
